## Education

<b>Meerut Institute of engineering and technology</b>	Meerut
<i>B-tech</i>	2022-2026
<b>The avenue public school</b>	Meerut
<i>Intermediate</i>	2021-2022
<b>The avenue public school</b>	Meerut
<i>High school</i>	2019-2020

## Experiences

<b>SCIT — Junior web developer</b>	2023-2025
------------------------------------	-----------

*Meerut*

- As a web developer for the college committee, my role involves designing, maintaining, and optimizing the website. I integrate interactive features, ensure compatibility across devices, and collaborate with stakeholders. I also monitor performance and provide technical support for optimal user experience.

## Projects

<b>Blogify   Node.js</b>	<a href="#">link</a>
<ul style="list-style-type: none"><li>Blogify is a user-friendly website enabling blog creation, user registration, and login functionality, fostering an engaging and interactive online community.</li></ul>	
<b>Learnify  mern stack</b>	<a href="#">link</a>
<ul style="list-style-type: none"><li>A website offering curated roadmaps guiding students through structured learning paths in various domains, facilitating focused and efficient skill development</li></ul>	
<b>Fashion   React-js</b>	<a href="#">link</a>
<ul style="list-style-type: none"><li>I developed an e-commerce website using React and Vite, integrating a fake product API. Utilizing Context API for state management, I ensured seamless functionality and optimal user experience while maintaining compatibility across devices.</li></ul>	
<b>Taskflow   Node js</b>	<a href="#">link</a>
<ul style="list-style-type: none"><li>TaskFlow is a comprehensive website for task management, team collaboration, calendar updates, and user administration, enhancing productivity and teamwork efficiency.</li></ul>	

## Achievement

### Hackathon Winner - fetch-a-thon

- Our team achieved second place in the Fetch-a-Thon competition, showcasing our dedication, collaboration, and problem-solving skills. With innovative solutions and effective teamwork, we successfully tackled challenges and demonstrated our commitment to excellence in the fetch-a-thon event.
- Botify: Integrated Fetch.ai uAgents with Discord to add payment functionalities. Enabled communities to easily sell courses or merchandise.

## Technical Skills

---
